SUCCESS STORIES

DHS/Transportation Security Administration

Challenges: TSA required it's Workforce Utilization Office with technical Application Support to maintain, upgrade, enhance, test and train their Security officers on TSA custom software and data used for planning, analysis and budgeting of over 50,000 Agents positions at 450 federal airports.

Solutions: Miracle Systems is providing experts who uses Microsoft SharePoint, SABRE Staff Plan and InfoPath forms in specific O & M services including technical applications Help Desk support, database development and maintenance, discrete event modeling & analysis, Information Security officer support (ISSO), ISSO Plans and Information Assurance assessments support to TSA CISO. Our team travels to 450 major Airports to implement and train on the use of Workforce Utilization tools.

SUCCESS STORIES

National Endowments for the ARTS

Challenges: NEA implemented Oracle Financial systems and faced major difficulties in utilizing Oracle Systems with their Grants programs, reimbursable agreements, financial data reconciliation and reliable Oracle reports.

Solutions: Miracle Systems resolved Oracle Application Systems 11i , Business Intelligence (Discoverer 10g) and Architecture database issues. We re-engineered the Business Processes and developed custom Oracle Discoverer reports to support the CFO office that assisted in reconciliation with Fund balance with treasury, Suspense Account clean up, obligation and payment issues.

SUCCESS STORIES

DHS/Transportation Security Administration

Challenges: TSA'S Office of Law Enforcement and Federal Air Marshal Service needed their Data Warehousing system and Database Management task to be Monitored containing mission critical OSSA data including Federal Air Marshall Services K – 9 unit on a daily basis

Solutions: Miracle systems is supporting TSA by deploying database objects and by tuning, optimization of high level DBA tasks for K-9 unit and by setting up tables in Oracle which has export capabilities into MS Excel that enables easy reporting and data manipulation. We also perform System change request process, Quality control and Configuration Management process through SDLC development cycle. We have significantly improved database performance by 40% utilizing several process techniques.

SUCCESS STORIES

DOT/Federal Motor Carrier & Safety Administration

Challenges: FMCSA'S software and database version was designed with proprietary code by previous Vendor. It was difficult in Navigating to Menu Options, GUI was not user-friendly, did not work offline , was not able to Synchronize with the FMCSA'S National database and did not download regulations in the XML and acrobats formats and was not 508 compliant

Solutions: Miracle Systems redesigned and rebuilt the Regulatory and Information Database (RAID) using Microsoft . Net Framework , Rational Rose, ERWin and SQL Server. It created a user friendly GUI, easy navigation, incorporates Federal and State regulations. The database is now used by over 8000 users nationwide.

CLIENT TESTIMONIALS

“Miracle Systems consultants have been a tremendous addition to the System team for OLE/FAMS. Their contribution and analysis is helping to lay the foundation for a robust staffing and payroll tool which will meet the needs of the OLE/FAMS community. Their expertise and knowledge has certainly helped us to design and eventually develop the types of tools that are critical for this Organization” -**Chief, Systems Management Branch, DHS-TSA**

Miracle Systems has been very instrumental in providing us with reconciliation data for our Financial Statements. We develop our 133 and 132 very timely due to their efforts. We have been able to retrieve data and analyze from Oracle Systems due to Miracle Systems. We are very fortunate to have knowledgeable consultants from Miracle Systems” - **Budget Officer, DOT-FMCSA,**

“NEH implemented Oracle Federal System and Miracle Systems has been providing us excellent support in developing custom reports and interface. We have saved thousands of dollars by contracting with Miracle Systems” -**Contracting Officer, National Endowment for the Humanities**
